FILIO

Daniel Figueroa's goal when he designed Filio was to create a meeting chair with a distinctive character. That stands out in the crowd. But also suits many different types of environments. With a contemporary design. Elegant details. Follows you and your contours. Offers back support and wonderful comfort. We named it Filio after the Latin word for son. An important part of the family. Carry on the legacy. Supports meetings and is versatile.

FUNCTIONAL AND FLEXIBLE ELEGANCE

The Filio meeting chair is easy to use, move and like. The timeless design is augmented with elegant details which give the chair character, for instance the precise transition from the armrests to backrest and frame. The curved backrest and the moulded, padded seat boosts the design value while the chair is comfortable to sit on. There are many options to choose from, for instance a fabric or mesh back and a four-legged or cantilever base.

DANIEL FIGUEROA

Daniel Figueroa loves to develop and improve products, preferably by scaling down and simplifying them. Most of all he loves to design chairs. He has designed with Filio a timeless chair with gentle curved lines and a clear identity, while at the same time it is comfortable to sit in and easy to use in many different environments.

"A timeless chair with gentle lines and a clear identity".

Daniel Figueroa
