

Installation:

EN

Decompressing downloaded zip file, we get this files:

“Readme.pdf”

“Qbiss_One.lcf”

“CW-Qbiss frames.xml”

“CW-Qbiss panels.xml”

“Qbiss_template.tpl”

- in Archicad, with Library Manager add in the active library

- in Archicad, in the “Scheme Settings” use button “Import”

- in Archicad, in the “Scheme Settings” use button “Import”

- Archicad template file

After installing, we get this elements in Archicad:

in Curtain Wall - Frames

Qbiss One B-Frame

Qbiss One B-H-Boundary

Qbiss One B-V-Boundary

Qbiss One F-Frame

Qbiss One F-H-Boundary

Qbiss One F-V-Boundary

in Curtain Wall - Panels

Qbiss one B-H-Element

Qbiss one B-H-Element-Corner

Qbiss one B-H-Element-Curved

Qbiss one B-H-Window-Door

Qbiss one B-V-Element

Qbiss one B-V-Element-Corner

Qbiss one B-V-Window-Door

Qbiss one F-H-Element

Qbiss one F-H-Element-Corner

Qbiss one F-H-Element-Curved

Qbiss one F-H-Window-Door

Qbiss one F-V-Element

Qbiss one F-V-Element-Corner

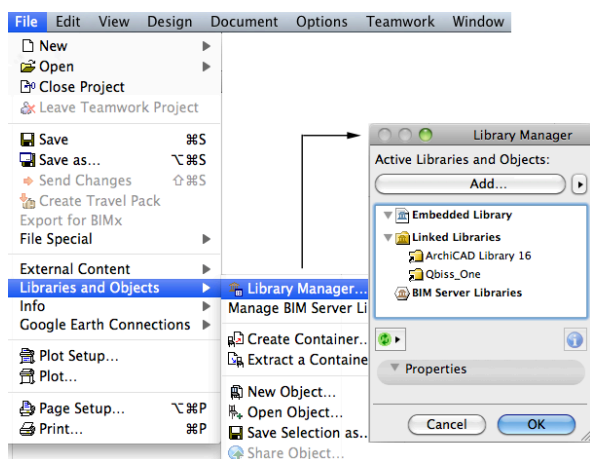

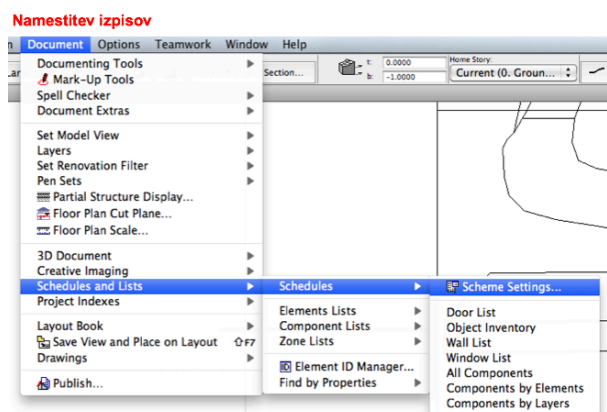

Qbiss one F-V-Window-Door

* in Qbiss One, we have two facade systems (B and F). Starting part of the name represents the system (B or F), H or V refers to “horizontal” or “vertical” installation method. **Qbiss One B(F)-Frame** can be used in both (“horizontal” or “vertical” installation).

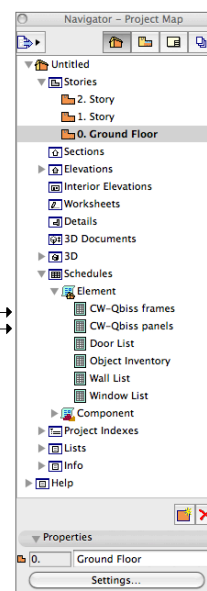

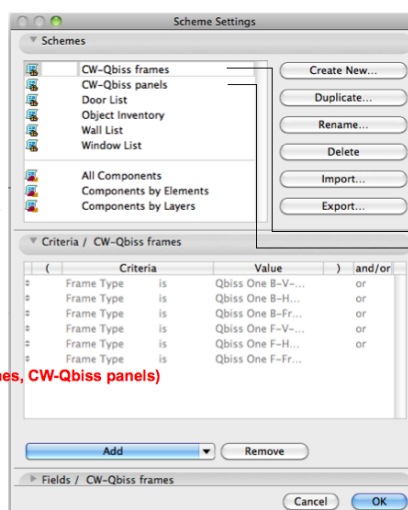

In the Navigator

In the Project map under “Schedules-Element” we can find two schedules “CW-Qbiss frames” and “CW-Qbiss panels”

* After creating the Curtain Wall we save this two schedules in Excel format and send to Trimo. Email: enquiry@qbiss.eu Shortly after receipt of these two files, an answer will be sent with an appropriate quotation. (Suggestion: Send also the Archicad file to Trimo)

**Library Manager**

Odpri "Scheme Settings"
-V "Scheme Settings" uporabiš gumb "Import" za namestitve izpisov (CW-Qbiss frames, CW-Qbiss panels)
-te izpise potem aktiviraš v Navigatorju

**Scheme Settings**

Namestitev:

SLO

Ko razpakiramo prenešeni zip dokument, dobimo sledeče dokumente:

“Readme.pdf”

“Qbiss_One.lcf”

“CW-Qbiss frames.xml”

“CW-Qbiss panels.xml”

“Qbiss_template.tpl”

- v Archicad-u namestimo z Library Manager-jem v aktivno knjižnico
- v Archicad-u v “Scheme Settings” namestimo z gumbom “Import”
- v Archicad-u v “Scheme Settings” namestimo z gumbom “Import”
- Archicad template file

Z namestitvijo dobimo v Archicadu:

v Curtain Wall - Frames

Qbiss One B-Frame

Qbiss One B-H-Boundary

Qbiss One B-V-Boundary

Qbiss One F-Frame

Qbiss One F-H-Boundary

Qbiss One F-V-Boundary

v Curtain Wall - Panels

Qbiss one B-H-Element

Qbiss one B-H-Element-Corner

Qbiss one B-H-Element-Curved

Qbiss one B-H-Window-Door

Qbiss one B-V-Element

Qbiss one B-V-Element-Corner

Qbiss one B-V-Window-Door

Qbiss one F-H-Element

Qbiss one F-H-Element-Corner

Qbiss one F-H-Element-Curved

Qbiss one F-H-Window-Door

Qbiss one F-V-Element

Qbiss one F-V-Element-Corner

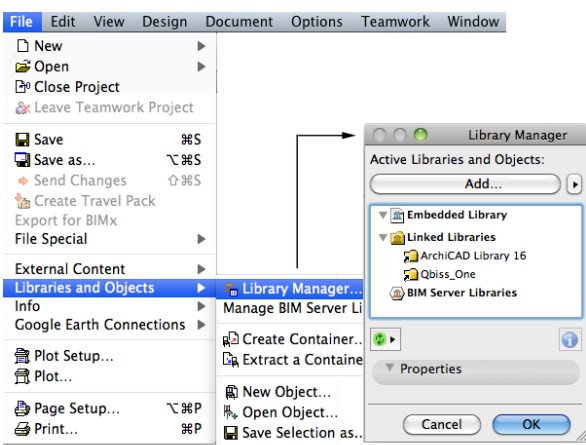

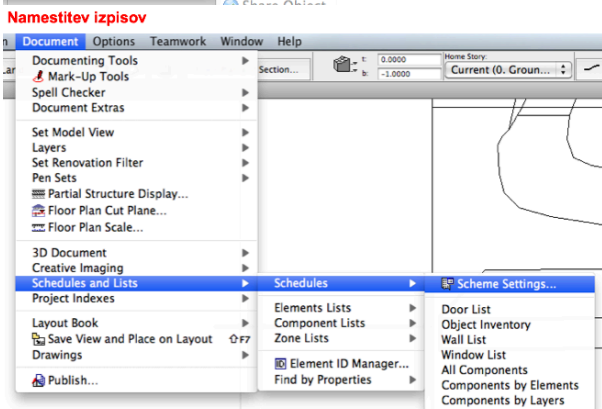

Qbiss one F-V-Window-Door

* Qbiss One sestavlja dva sistema (B in F). Začetni del imena predstavlja sistem (B ali F), H ali V pomeni “horizontalna” ali “vertikalna” postavitev. **Qbiss One B(F)-Frame** ustrežata tako “horizontalni” kot “vertikalni” postavitvi.

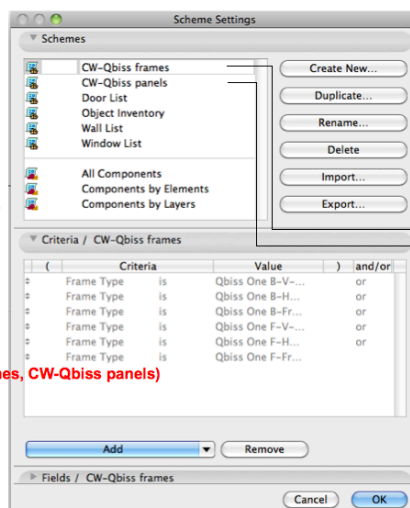

V Navigatorju

V Project mapi pod “Schedules-Element” najdemo izpisa “**CW-Qbiss frames**” in “**CW-Qbiss panels**”

* Ta izpisa shranimo v Excel format in pošljemo Trimu, ki nam odgovori z ustrežno ponudbo. Email: enquiry@qbiss.eu (Priporočeno je poslati tudi Archicad dokument ali ključne tlorise in fasadne poglede.)

**Library Manager**

Odpre "Scheme Settings"
-V "Scheme Settings" uporabiš gumb "Import" za namestitev izpisov (CW-Qbiss frames, CW-Qbiss panels)
-te izpise potem aktiviraš v Navigatorju
